## SUMMARY

I'm a curious and driven Computer Science student with a strong interest in using technology to solve real-world problems. Over the past few semesters, I've worked on various academic and personal projects—ranging from web development and UI/UX design to creative problem-solving through design thinking. I enjoy building user-friendly, practical solutions and am especially excited by how AI and smart systems can enhance everyday experiences. With a combination of technical skills, creativity, and clear communication, I'm always eager to learn, collaborate, and take on new challenges that help me grow and make a positive impact
